Sidewinder (*Crotalus cerastes*)

Speckled Rattlesnake (*Crotalus mitchellii*)

Tiger Rattlesnake (*Crotalus tigris*)

Timber Rattlesnake (*Crotalus horridus*)

Western Diamond-backed Rattlesnake (*Crotalus atrox*)

Western Rattlesnake (*Crotalus oreganus*)

Snake Safety: If you encounter a venomous snake in the field, back away slowly and leave it alone. Many venomous snake bites are caused when attempting to harass or kill snakes. Bites from venomous snakes can be serious. If bitten by a venomous snake try to remain calm and seek immediate emergency medical attention.
