## *Forging Ahead: Preventing Work Related Musculoskeletal Disorders*

*Westfields Marriott, Chantilly, Virginia  
29-30 April 2002*

On behalf of the DOD Ergonomics Working Group, I'd like to invite you to attend the 2nd Annual DOD Ergonomics Conference: ***Forging Ahead - Preventing Work Related Musculoskeletal Disorders***. These are exciting and challenging times for those of us in the ergonomics community. This conference was designed to provide you, our DOD and Federal safety and health professionals, with "tools for your ergonomic toolbox." Our goal is to provide you with practical, user-friendly information that you can use when you return to your organization.

This program is jointly sponsored by the Uniformed Services University of the Health Sciences and the Department of Defense Ergonomics Working Group. USUHS is accredited by the American College of Health Care Executives, the Accreditation Council for Continuing Medical Education and the American Nurses Credentialing Center's Commission on Accreditation to provide continuing education for health care executives, physicians and nurses, respectively.

The registration fee, which includes your meals, is \$300 for Government attendees and \$400 for industry attendees.

Go to <http://chppm-www.apgea.army.mil/ergowg/conference/> for detailed information on registration and the agenda, speakers, exhibitors, and hotel.

MARY S. LOPEZ, PhD, CPE  
LTC(P), SP  
Chair, DoD Ergonomics Working Group
