

Restoration Advisory Board Mission and Vision Statements

The mission of the Restoration Advisory Board is to promote the restoration of the desert ecosystem at China Lake through collaborative efforts with the Navy, cooperating and regulatory agencies, and the community.

The Restoration Advisory Board endeavors to achieve its mission by pursuing the following:

- To educate and inform the community on issues related to the clean-up process.
- To act as a conduit for the exchange of information between the Navy, cooperating and regulatory agencies, and the community.
- To base its actions on its concern for the public health, the environment, and social and fiscal responsibility.

The vision of the Restoration Advisory Board is to be a world-class organization, successfully accomplishing its mission in an exemplary manner.

The Restoration Advisory Board will achieve its vision by pursuing the following:

- To be recognized as providing outstanding advice to the Navy.
- To garner the full support and participation of the community.
- To provide the community with timely, accurate, and understandable technical and fiscal information.
- To maintain its viability as a diverse, balanced, conscientious, and open forum until the effected ecosystems are returned to a state of health.
